Unknown ND

Affected Medium: 02 - water

Near. Occupied Bldg: 27 Feet

Type of Incident: Used motor oil illegally dumped

Release Contained: No

Reported to NRC: Unknown

Contaminant: Used motor oil

Volume of Release: 1.5 gallons

Duration of Release:

Agriculture Related: No

EPA Extremely

Hazardous Substance: Unknown

Number of Fatalities: 0

Number of Injuries: 0

Cause of Incident:

Someone spilled used motor oil in the curb gutter and then through the container (still mostly full of used motor oil) into the stormwater drain. The container current sits at the bottom of the stormwater drain leaking used motor oil.

Risk Evaluation:

None.

Potential Env. Impacts:

About 1.5 gallons of used motor oil will likely end up in the river.

Action Taken/Planned:

Someone should go clean it up before it ends up in the river.

Wastes Disposal Location:

Other Agencies Involved:

Updates

Date: 8/10/2016 **Status:** Reviewed - Assigned to NDDEQ Division

Author: Crowdus, Kory

Notes:

Report filed with incorrect TRS. Based on lat/long, the correct TRS was determined and changed in the database.

Report forwarded to the Division of Water Quality.

Updated Volume: None at the time of this update

Date: 8/10/2016 **Status:** Reviewed - Assigned to NDDEQ Division

Author: Grossman, Dallas

Notes:

Contacted Terry Halstengard with the City of Bismarck. The city had already received a report about the used oil spill. The city cleaned up the free product in the street and storm sewer manhole. The rest of the oil soaked into the concrete. An oil boom was placed at the bottom of the manhole to soak up any remaining free product and will be removed in the next few days.
